DIVIDE MINERS VOTE TO WORK

Decisive Action Is Taken Against the I. W. W. Leadership

SALE OF WARD MINE TO STRONG SYNDICATE

Hamilton is coming back with a rush due to the purchase of two leading properties of that district by interests financially capable of putting through very extensive development and construction. Yesterday at Carson City articles of Incorporation for the Eureka Hamilton Mines company controlled by New York San Francisco and Tonopah capital, were filed while reports from Ely affirm the sale of the old Eberhard mine adjoining to the Doherty interest. In this connection it may be timely to remark that the richest man on the Pacific coast whose income is reckoned at \$2,000,000 a month, got his start in the old camp of Hamilton where he worked as an ordinary miner. That is the human interest element that marks the return of Doherty, the oil magnate, to the mining game. Incidentally it should be mentioned that the Eberhard produced \$40,000,000 and has vast reserves in sight.

The Eureka Hamilton company takes over the Ward holdings including the Eberhard with seventeen claims owned by the company. This group was bought from R. G. Ward, who is now in Tonopah and who has personally worked the mine for the past eight years going steadily ahead to put ore in sight and piling up large tonnage of good milling ore on the dumps. The price paid for the property was \$75,000 and the first act of Thomas J. Lynch, treasurer of the company, on arriving in Tonopah this morning, was to place \$10,000 with the Tonopah Banking Corporation to the credit of Ward, as first payment. The officers are: R. G. Ward, president; Julius Goldsmith, vice president, and Thomas J. Lynch, secretary and treasurer.

The old Ward property has a historical value as it has been identified with the Hamilton district as the nearest neighbor of the big producer. The values are carried in a replacement deposit in lime and show in enormous bodies ranging in value from \$35 to \$40. The mine, according to reports of conservative engineers, has \$200,000 in positive and probable ore of an excellent grade. The stock of the company is being placed through brokers and by the secretary at the pre-liminary price of 30 cents a share.

The present owners were guided largely by the report of H. Z. Peters the well known Tonopah mining engineer, who is noted for his conservative views. According to the Peters report the ground has the same showings that made the Eberhard famous and it is possible to work one of the most potential sections of the mine in the Argyle claim through the famous Eberhard tunnel which was driven for a distance of nearly two miles at a cost of \$1,500,000. The main showing is a northerly and southerly ledge that follows an anticlinal fold in the limestone. The ore bodies occur in four distinct types in contacts of lime and shale with cross fractures transverse to the folds and from these fractures along the bedding plane. There are also northerly and southerly fractures along the apex of the fold. One of the large showings on the Argyle claim developed to a depth of 36 feet is a fissure deposit showing an orebody 18 feet wide dipping for a distance of 40 feet that yields assays of \$20.31 per ton, on the average.

At noon today Montana voters began indicating their presidential preference at a state-wide primary. Republicans have five candidates: Harding, Lowden, Hoover, Johnson and Wood. No Democratic presidential candidates appear on the ballot, but the name of Governor Samuel Stewart for Vice President was offered.

At noon today Montana voters began indicating their presidential preference at a state-wide primary. Republicans have five candidates: Harding, Lowden, Hoover, Johnson and Wood. No Democratic presidential candidates appear on the ballot, but the name of Governor Samuel Stewart for Vice President was offered.

MASS MEETING CALLED FOR THE AIRDOME AT FIVE THIS AFTERNOON

Tonopah mineworkers will have a chance to talk over the local industrial situation at the Airdome this afternoon at 5 o'clock when a meeting will be held with authority from the district attorney. The action was initiated by Norman Flood, formerly employed by the Tonopah Extension who says his only motive is to see what the men want to do and to present the straight issue of whether they favor Bolshevism or Americanism for a vote of those in attendance.

Workers in the Divide district went on record last night at a meeting held in the Divide garage where the question of working or striking was submitted. The result was that the meeting by a vote of 64 to 19 resolved to stay with their employers and report regularly for work. The decision was received with cheers. Today every mine in that section with exception of the Tonopah Dividend and Gold Zone are running with full crews. The only defection was on the Thomson where two men called for their time. The Tonopah situation is one of passivity on both sides with fewer men working today than yesterday. At the Belmont 60 men called for their time last night and 11 more quit today. The train leaving for the north this morning took out 25 miners including two of the leading agitators who recently arrived here from Butte.

District Attorney Atkinson denies that he called off the meeting which was held at the Airdome.

AMUNDSEN IN EAST SIBERIA

NOME, April 23.—Captain Raold Amundsen, the explorer, has arrived in far eastern Siberia, according to a wireless from Admiral Anadir. Amundsen started nineteen months ago to drift with Arctic floes for the purpose not primarily of reaching the north pole, but to make scientific observations.

NEW YORK, April 23.—It is possible that Raold Amundsen, whose arrival is reported in Siberia may have attained the north pole in an air plane he took on his exploring expedition, according to Dr Edmund Howe, of the American Museum of Natural History.

ONLY TWO BANKS BREAK IN JAPAN

WASHINGTON, April 23.—Only two banks in Japan have suspended payment as a result of financial trouble in that country. The Department of Commerce is advised from Tokyo. The raw silk and weaving industries felt the great force of the financial trouble. Suspension of trading in Tokyo stock exchange may be continued another week.

OCCUPATION OF RUHR DISTRICT

SAN FRANCISCO, April 23.—The price of 20% a pound was set today for the new sugar allotment for California by the Hawaiian Sugar Refining Company. The retail price will be about 22 1/2 cents. The increase since January first when government control ended has been 10%.

MEXICAN JUDGE ARRESTED ON THE BORDER

DOUGLAS, Ariz., April 23.—Ignacio Posqueira, chief justice of the Mexican Supreme Court, said to have been appointed military governor of Sonora, was arrested by United States officers as he stepped off a train here today. The woman said to have been brought here by Posqueira from Mexico was detained. Posqueira's arrest is said to be in connection with bringing the woman into the United States and transporting her here from Laredo, Texas. Posqueira is said to have come here to await the arrival of Carranza troops in Sonora when he was to assume the duties of chief executive in Sonora.

WARSHIPS SAIL FOR MEXICO

LOS ANGELES, April 23.—The cruiser Salem and one destroyer were ordered by Admiral Rodman to sail immediately for Mexican waters. These vessels will touch at Mazatlan and then are expected to go to Topolampco.

LYNCHING MOB STARTS RIOT IN INDIANAPOLIS

INDIANAPOLIS, April 23.—Indianapolis is quiet today following riotous scenes last night when police dispersed a mob bent on lynching William Huff, colored, who is alleged to have confessed the murder of Martha Huff, a young white girl. One person was shot and fifteen arrested.

MISERABLE PAY FOR PREACHERS

CHICAGO, April 23.—The average annual salary of an American minister is \$387 and more than half receive less than minimum workman's wage, a survey by the International World movement reveals. It demands the Chicago director, announced today.

DEATH LIST REACHES 233

BIRMINGHAM, April 23.—Reports from portions of Alabama, Mississippi and Tennessee swept by Tuesday's tornado, today brought the total death list to 233. The injured numbered 619 with property losses of two millions, with 500 families homeless.

CAMELS POSTPONE ELECTION FOR WEEK

The camels failed to complete their nomination and election owing to the absence of W. W. Booth, sheriff of Tonopah County, secretary of the Tonopah County Board of Supervisors. Arthur H. Kestel, the secretary, left for Goldfield this morning to resign the position of the Southern camp.

ADMIRAL KILLS SELF ON DUTY

WASHINGTON, April 23.—Hear Admiral Charles Brittain, chief of staff for Admiral Henry Wilson, commander of the Atlantic fleet, committed suicide by shooting himself yesterday while on duty with this fleet in Cuban waters. No reason for the act is assigned.

FINED FOR BIG BERRY PACKING

LOS ANGELES, April 23.—Putting big berries in top of barrels and Japanese strawberry growers a total of \$400 fines in a justice court today. "We have tried to stop this topping by talking to these people, now we are trying something else," Horticultural commissioner Byron said.
